

RGK26DC SLINGKY

ANCHORAGE SLING WITH WEAR SLEEVE

Our new Anchorage Sling is specifically designed to allow users to utilise a girder or beam to anchor themselves quickly and safely.

It also benefits from being lightweight at only 24g/m. Made from our MT-X webbing using UHMWPE yarn produced by sister company MARLING LEEK. Extensively tested to be ultra-resistant to cuts and abrasion. Offers great breaking strength-to-weight ratio. Resistant to UV degradation and chemical attack. Features an integral outer wear sleeve offering further protection and durability.

Lightweight, versatile and abrasion resistant wear protector sleeve

Accredited to: EN 795:2012, Type B

Material: MT-X webbing (UHMWPE yarn)

Breaking load: >22kN

Length (EWL)/Weight: 1m = 70g
2m = 150g
