

RGK1/A

21MM SCREWGATE ALUMINIUM KARABINER RGK1/A

The RGK1/A is a lightweight alternative to our steel screwgate karabiner (RGK1).

The screwgate closure on this device means that the user must manually lock the RGK1/A keeper after fitting.

RGK1/As are the basic universal karabiner used within the climbing industry where weight is important.

Each karabiner is supplied with an unique serial number for complete traceability and inspection control.
