## 12L BACKPACK

### RGS12

Our branded 12l backpack is produced from PU coated ripstop nylon and is a cost effective way of storing your safety equipment.

The use of durable ripstop nylon ensure the bag is resistant to abrasion and tears. The water-resistant PU coating is not only a barrier against harsh weather conditions, its lightweight, flexible and more environmentally friendly than other traditional water-resistant coatings.

A lightweight storage solution, which has a self-storage feature, so once equipment has been donned it can be repacked and attached to your harness if desired.

- Carry handle
- Shoulder straps
- Self-storage pocket
